

**Environmental Group Monthly Presentation:**

***“Sustainability: Reactions and Catalysts”***

**September 22, 2011, 7:30pm**

**Karyn Igar, PE, LEED AP, CEA**  
Senior Consultant

Environmental and Occupational Risk Management, Inc. (EORM)

**Presentation Abstract:**

This presentation provides an overview of Sustainability, defines the terms and buzz words, and shows how it integrates into business operations. Key topics include the Triple Bottom Line, Sustainability Reporting, Energy Use, Water Use and Recycling, and Greenhouse Gas Emissions and Climate Change Risk. The presentation focuses on the drivers for Sustainability in business and industry, and includes government promotion of Sustainability, including the California Green Chemistry Initiative, and the European Union’s Restriction of Hazardous Substances Directive (RoHS).

**Speaker Biography:**

Karyn Igar, PE, LEED AP, CEA is an environmental engineer with 15 years of experience in projects that improve the environment, worker safety, and civil infrastructure. She brings a broad technical background, detailed project planning and management experience, and teambuilding/facilitation skills to her projects. Ms. Igar has a Master of Science in Environmental Engineering from UCI and BS in Aeronautical Engineering from Ohio State. She is a licensed Civil Engineer, a LEED Accredited Professional, and a Certified Energy Auditor.
